

BLUE STREAK® IMPORT COILS

WHAT'S IN YOUR BOX?

StandardWhatsInYourBox.com

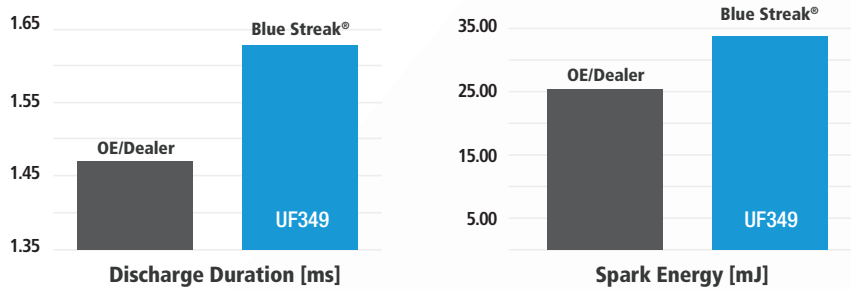

Heavier-Duty Coils for Import Vehicles

Designed and manufactured at our IATF 16949-certified facility in Bialystok, Poland, Blue Streak® Heavier-Duty Ignition Coils are a product of superior design, engineering and testing. Blue Streak® premium Import Coils feature numerous upgrades and competitive benefits to deliver a more reliable, better-performing, and longer-lasting Ignition Coil. That's the Blue Streak® legacy.

What's inside the Blue Streak® box... superior design, advanced engineering and Heavier-Duty Ignition Coils. What's in your box?

The Test Results Are In

Blue Streak® Coils outperform the OE coil with more spark energy and longer-lasting discharge to deliver improved performance and fuel economy.

ENGINEERING IMPROVEMENTS

Engineering improvements and upgrades over the original design deliver a better-performing and longer-lasting Coil

Popular Blue Streak® Heavier-Duty Coils are available in multi-packs for a complete coil service

Backed by our Limited Lifetime Warranty

Blue Streak® Import Ignition Coils feature more sections. That means less heat and a longer coil life.

Problem:

Ignition coils on 2020-01 Nissan & Infiniti 3.5L V6s have a high failure rate

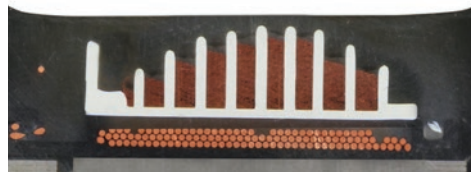

OE coil has 8 bobbin sections

This causes more heat and leads to premature coil failure

Solution:

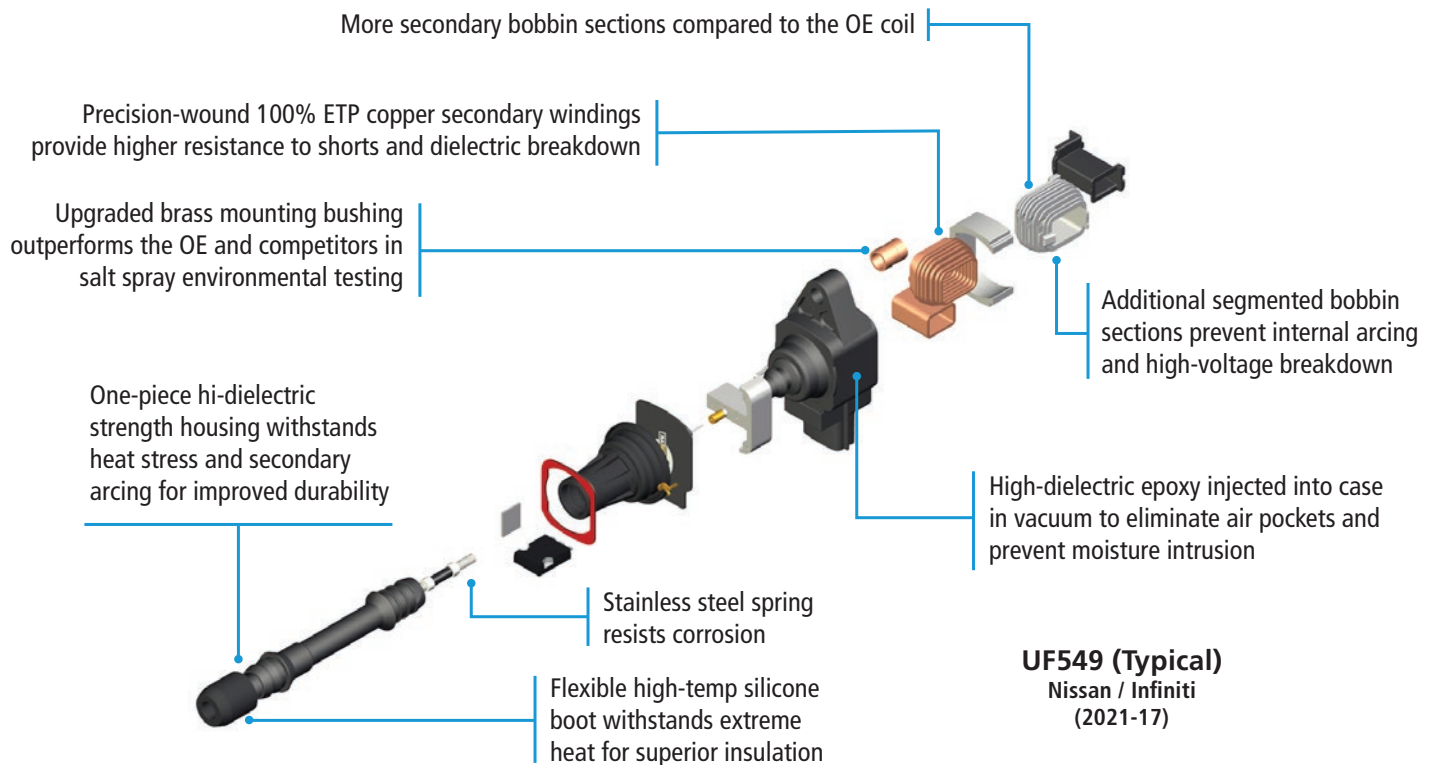

Blue Streak® designed an all-new Coil with an additional section

Blue Streak® UF349 has 9 bobbin sections

The additional section means less energy passes through each section, allowing for lower temperatures and longer Coil life

Superior Design and Engineering

For more than 100 years, when the OE failed, technicians trusted Standard® and Blue Streak® to deliver a part that's equal to or better than the original it's replacing.
