

EVOLVING CAPABILITIES

FOR MORE THAN 100 YEARS

When the OE failed, technicians trusted Standard® to deliver an automotive replacement part that's equal to or better than the original

As a global manufacturer and distributor of premium automotive replacement parts, we're the aftermarket leader, with a complementary focus on heavy-duty, industrial and OE/OES markets.

The Engine Management Division led by the flagship Standard® and Blue Streak® brands, engineers and manufactures top-quality ignition & electrical, emissions, fuel, wire, power management, sensors, safety-related systems components and more.

SMP's Temperature Control Division led by the Four Seasons® brand, manufactures, remanufactures and distributes a full line of replacement components for mobile climate control and cooling systems. In fact, Four Seasons® is the largest compressor remanufacturer in the world.

COMMITTED TO NEW TECHNOLOGIES

SMP is committed to growing technologies offering extensive coverage for ICE (internal combustion engine), Advanced-ICE, Beyond-ICE and advanced Climate Control parts categories.

SUPPLY CHAIN EXCELLENCE

At SMP, our supply chain and logistics systems are best-in-class with data-driven supply initiatives that ensure accurate, timely delivery. Our extensive customer collaboration includes CPFR, VMI, and category management supported by advanced inventory optimization tools. SMP delivers the parts our customers need, when they need them.

PREMIUM QUALITY & PREMIUM BRANDS

In a recent industry survey technicians told us that High-Quality Parts and Trusted Brand were the top factors when making a purchasing decision. How did we stack up... **SMP has the 5 top-rated aftermarket brands.**

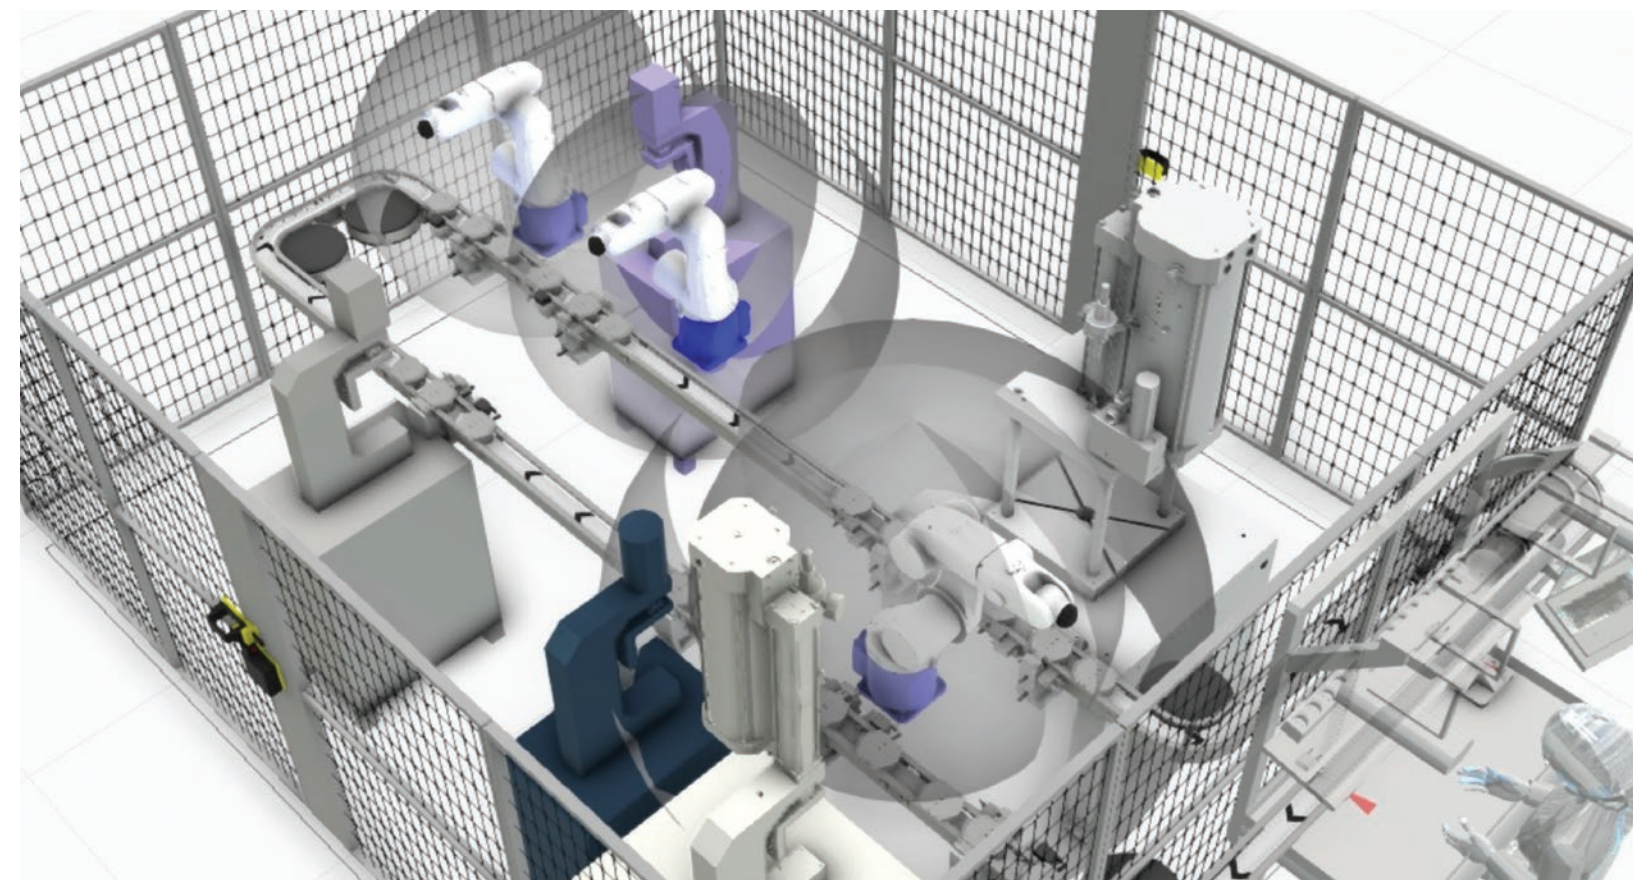

ADVANCED ENGINEERING

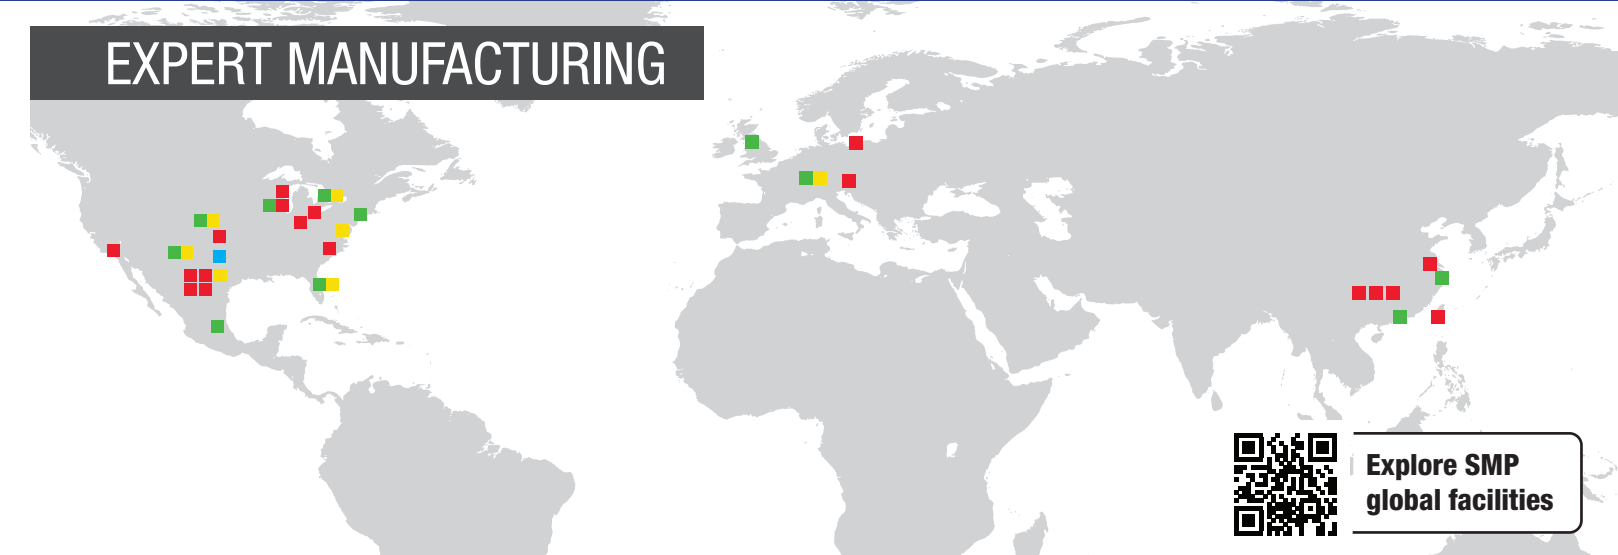

Our engineering investment is key to developing existing and new product categories for today's technology and tomorrow's. Our 11 fully-equipped design and development centers with 300+ engineers, techs, and designers are supported by dedicated product validation labs in New York and Texas.

EXPERT MANUFACTURING

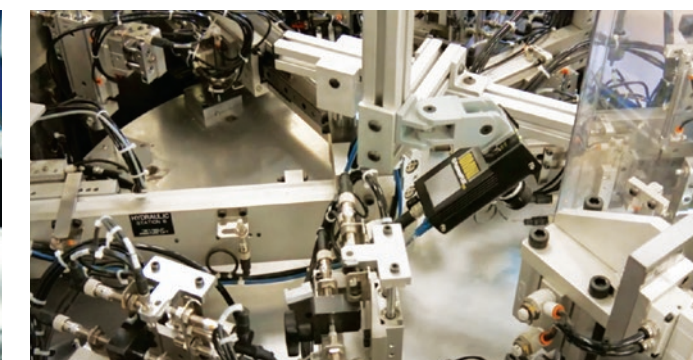

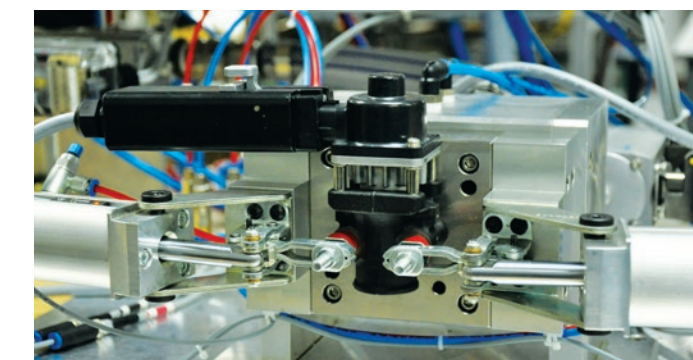

Explore SMP global facilities

United States	Canada	England	China	Offices
Disputanta, VA	Mississauga, ONT	Nottingham	Hong Kong	Manufacturing
Edwardsville, KS	St. Thomas, ONT	Kirchheim	Shanghai	Distribution
Ft. Lauderdale, FL	Mishawaka, IN	Hungary	Foshan (3 locations)	Training
Greenville, SC	Milwaukee, WI	Pécel	Wuxi	
Independence, KS	Sheboygan Falls, WI	Poland	Taiwan	
Irving, TX	Reynosa (4 mfg. locations)	Bialystok	Taichung	
	Tijuana			

We understand it's not enough to be the coverage leader with more than 80,000 parts for domestic and import vehicles; we're an expert basic manufacturer, with 18 facilities covering over 3 million square feet. SMP® plants hold the latest IATF 16949, ISO 9001, and ISO 14001 certifications, ensuring every Standard® part can be installed with confidence.

EXTENSIVE PRODUCT TESTING

Our engineers perform rigorous laboratory and real-life testing including precision examination, measurement and product validation, end-of-line testing, and environmental analysis. This unyielding quality control is supported by our Vehicle Test Center in Texas with live on-vehicle testing. We go to these extraordinary lengths to ensure every part we put in our box performs and lasts.

MARKETING & DATA SUPPORT

SMP® eCatalogs feature the most current catalog data with robust rich content: multi-view images, install videos, instruction sheets, part specs, related parts, support material and more. The award-winning SMP® Parts App seamlessly delivers this information to your mobile device with enhanced features and search tools.

SALES SUPPORT & CUSTOMER INSIGHTS

Our experienced field sales team has evolved to a more data driven unit supported by an expanded category management group. Our Field Category Management Team, recent winner of the AASA Channel Excellence Award, works to collaborate with SMP customers, utilizing category insights to transform customer inventory investment into profits.

OUR COMMITMENT

For more than a century, SMP has a proven track record of delivering premium quality products and premium brands, advanced engineering with expert manufacturing, precise catalog data, award-winning training, world-class marketing support and customer care, and a time-tested ability to adapt to the automotive technologies of the day. But most of all, a commitment to integrity. SMP is more than just a part in a box – we view customer relationships as active partnerships, today and for years to come.

AWARD-WINNING TECHNICIAN TRAINING

Accredited Training Provider

SMP® Training educates technicians in the latest automotive repair technologies with in-person, live virtual, and on-demand online classes. Taught by professional trainers who are experienced ASE-certified automotive technicians themselves, our ASE-accreditation allows techs to earn continuing education credits (CEU). Visit standardbrandtraining.com for more information.
