

THINK TECHSMART® FIRST

TechSmart® Distributor Assemblies

TechSmart® engineers have developed the finest quality, better-than-OE distributor assemblies for GM 4.3L V6 & 5.0/5.7L V8 applications. Behind each part is a meticulous attention to detail, rigorous testing, and over 90 years experience in ignition manufacturing. Think TechSmart® when choosing your next distributor.

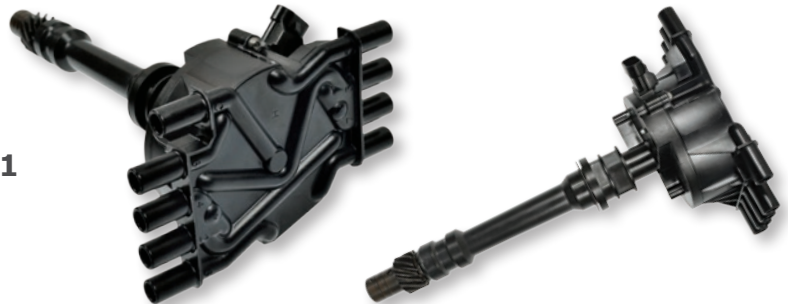

- High Dielectric Strength Cap ensures accurate energy transfer and spark timing
- Improved Gear Design for enhanced performance in high-torque applications
- Stainless Steel Screws protect against corrosion
- 100% Tested to ensure peak performance and extended distributor life
- SAE J1171 Certified for use in marine applications
- Made in the USA
