

Busy?

You bet you're busy. Work all day, and then do your best to keep up with new automotive technologies, tools, and techniques at night.

Training seminars are great, but many aren't close by. What you'd really like is good, affordable—convenient—training.

PTS Online is the answer, with a new series of eLearning webinars; delivered so you can watch them online in the comfort of your own home. This new series will present 16 entirely new webinar presentations in 2010.

**Live
Web Training
for Professional
Technicians**

Delivered to Your PC

The best part of the **PTS Online** webinar series is that you can attend the classes from the comfort of your office or den.

All you need is a personal computer, high speed internet access, a comfortable chair, and assorted snacks and beverages.

We make it easy.

All **PTS Online Webinars** are designed with input from working master technicians.

We know what it takes to fix modern vehicles. That's why all course modules are built around real world case studies.

Better still, we'll show you how to use the latest tools and techniques, and access the repair data that answer your toughest questions.

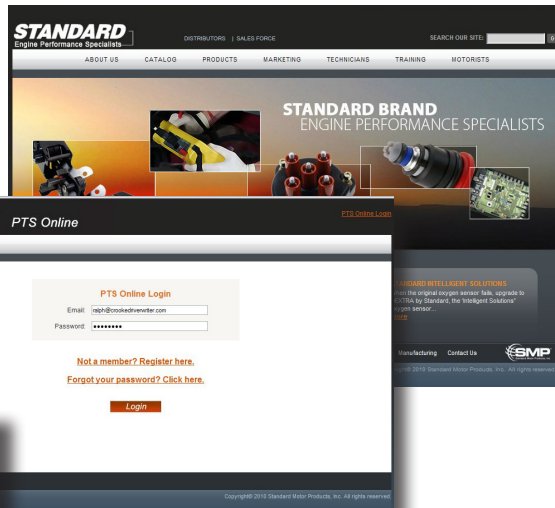

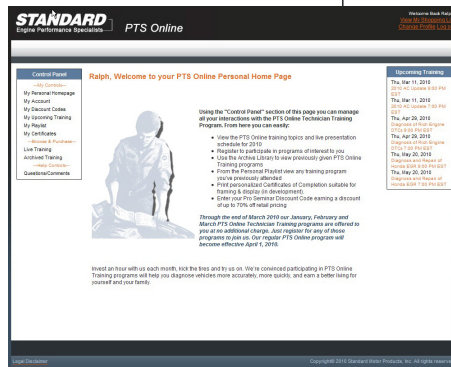

PTS Online

Three Easy Steps

1) Go to www.standardbrand.com

Select **Webinar Training - PTS** under the **Training** tab.

2) Register and log in.

3) Open your personalized **PTS Online** web page.

Then manage your own curriculum.

Register for classes, review your attendance at past seminars, and browse a schedule of upcoming classes.

Easy.

As a valued parts and training customer, you are eligible for a substantial discount.

Enter the discount code for up to 70% off Online Training.
