

WHAT'S IN YOUR BOX?

StandardWhatsInYourBox.com

The Most Consistent and Durable Camshaft and Crankshaft Sensors in the Industry

Today's advanced engines depend on accurate and consistent information from cam and crank Sensors for performance, fuel economy and emissions, and not all cam and crank sensors are created equal. Standard® Cam and Crank Sensors feature an integrated A/D convertor and digital signal processing for reliable and consistent performance in all situations.

What's inside the Standard® box... Advanced engineering, precision manufacturing and comprehensive testing. What's in Your Box?

Standard® Cam and Crank Sensors also feature advanced circuitry to protect against stray magnetic fields and power spikes. Best of all, you can recommend Standard® Cam and Crank Sensors with confidence knowing that each component has been end-of-line tested for timing, pulse width and signal amplitude.

and import applications

**KITS FOR A
COMPLETE JOB**

Blue Streak® Camshaft Sensor Kits
contain camshaft sensors along
with high-temperature connectors to
replace the damaged originals

As an expert manufacturer,
you know what to expect
every time you open our box.
Can your supplier say the same?

Our standards are so high, we know they'll meet yours.

OUR EXTENSIVE TESTING ENSURES DURABILITY AND PERFORMANCE

Sensors undergo 48-64-hour vibration tests and chamber testing cycles from -40°F to 257°F to ensure a long service life in extreme conditions.

Blue Streak® Camshaft Sensor Kits

OE PROBLEM:

Camshaft sensors on Nissan / Infiniti applications are known for their high failure rates

BLUE STREAK® SOLUTION:

A new, advanced-engineered Camshaft Sensor with an integrated A/D convertor and new high-temp connector for a complete service

Advanced circuitry provides immunity from EMI that meets ISO standards

Fluorocarbon rubber oil seal ensures secure fit

Sealed construction withstands extreme under-hood conditions

Integrated A/D converter sends a digital signal for precise ignition timing, optimizing fuel economy and performance

High-temp connector to replace the melted/damaged originals

PC458K
Infiniti / Nissan Cars & SUVs
(2007-01)
VIO: 170K

We offer 25 Blue Streak® Camshaft Sensor Kits for popular applications. For our complete offering, visit StandardBrand.com.

For more than 100 years, when the OE failed, technicians trusted Standard® and Blue Streak® to deliver a part that's equal to or better than the original it's replacing.
