

CONNECTORS

400+ SKUs

ABS Sensor Connectors

Active Grille Shutter Connectors

Blind Spot Detection Sensor Connectors

Center High Mount Stop Light Connectors

Combination Switch Connectors

Cruise Control Distance Sensor Connectors

Door Lock Actuator Connectors

Hood Latch & Actuator Connectors

Liftgate Actuator Connectors

Park Assist & Lane Departure Camera Connectors

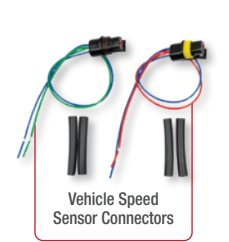

Park Assist Sensor Connectors

Steering Angle Sensor Connectors

Trunk Latch & Actuator Connectors

Vehicle Speed Sensor Connectors

Ambient Air Temp Sensor Connectors

Airbag Clock Spring Connectors

Standard® and Blue Streak® Connector Kits save technicians time

Park Assist Sensor Connector Kit
PPS1K

Electrical Connector Kit
STA35

High-Temperature Connector Kit
HTA41

WHAT'S IN YOUR BOX?™

HERE IS WHAT'S IN OURS

Research and Development

We have 13 of our own design and development centers strategically located around the world, including New York, South Carolina, Germany, and Poland. We are continuously developing the very best performing products in the industry.

In-House Manufacturing

From start to finish, we are an expert manufacturer with 19 manufacturing facilities. SMP manufacturing plants are IATF 16949, ISO 9001 and ISO 14001-certified.

Testing and Validation

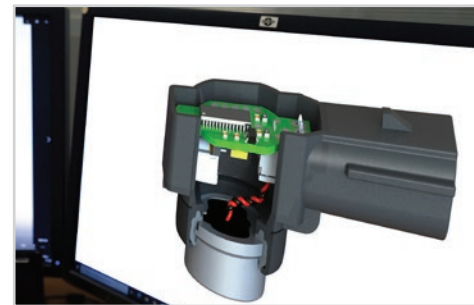

Our products are extensively tested in the lab and on actual vehicles. Lab testing includes thermal shock, thermal cycling, salt spray testing and more. New ADAS components are also tested at the SMP Vehicle Testing Center to ensure they correctly integrate with electronic crash avoidance systems.

Industry-Leading Coverage

Leading coverage in key ADAS and collision repair categories, coupled with time-saving connector kits mean technicians can spend less time looking for parts, and get their customers back on the road.

Sales Support and Category Management

The industry's best and most recognized training programs, robust marketing, world-class category management, and a salesforce that's second to none, is why we're more than just a part in the box.

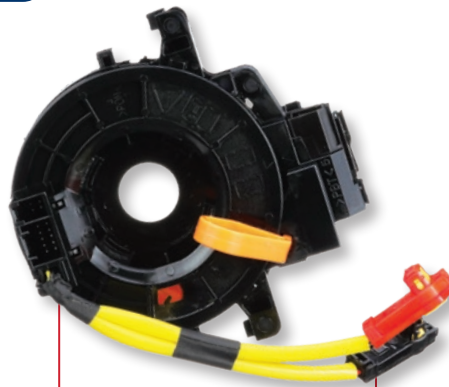

COLLISION REPAIR PROGRAM

UNDERHOOD & CABIN COMPONENTS

3,000+ SKUs

Active Grille Shutters

Airbag Clock Springs

Combination Switches

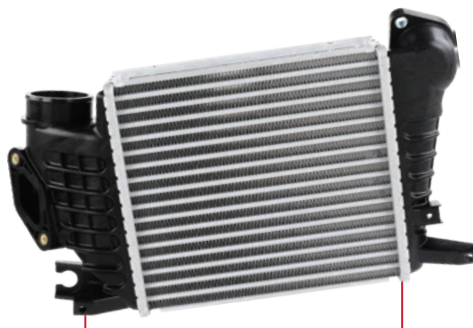

Headlight Level Sensors

High-Temp Headlight Connectors

HID Headlight Ballasts

Turbocharger Intercoolers

Window Switches

ACTUATORS & SENSORS

4,400+ SKUs

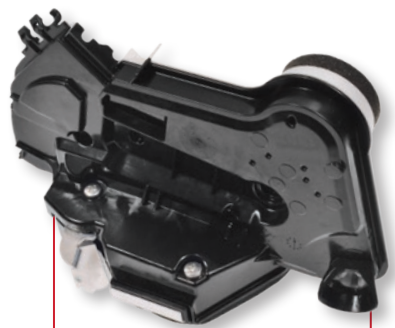

ABS Sensors

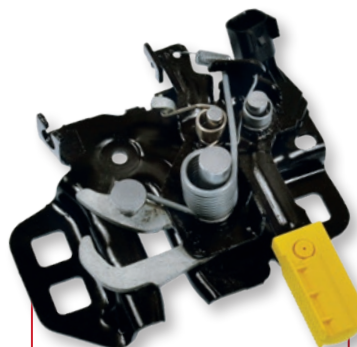

Active Grille Shutter Actuators

Ambient Air Temp Sensors

Door Lock Actuators

Hood/Trunk Latches & Actuators

Liftgate Actuators

Parking Brake Actuators

Ride Height Sensors

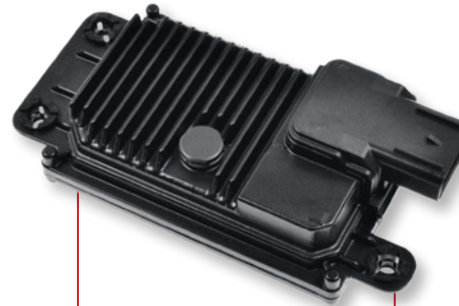

Vehicle Speed Sensors

ADAS COMPONENTS

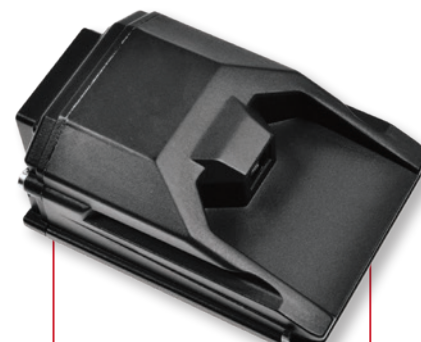

900+ SKUs

Blind Spot Detection Sensors

Cruise Control Distance Sensors

Lane Departure System Cameras

Park Assist Sensors

Park Assist Cameras

Steering Angle Sensors

STANDARD® COLLISION REPAIR COMPONENTS ARE ENGINEERED TO HELP RESTORE THE PERFORMANCE OF YOUR CUSTOMER'S VEHICLE AND ITS ELECTRONIC SAFETY SYSTEMS
