

Variable Valve Timing (VVT)

New Product Category

Demonstrating our commitment to supplying professional technicians with quality replacement parts in high-tech categories, Standard[®] is proud to introduce a new line of variable valve timing (VVT) components. As a sign of things to come, our initial launch features 84 parts covering 40 million VIO. Here are a few of the highlights:

Variable Valve Timing (VVT) Solenoid

Best Sellers

VVT solenoids can fail due to low engine oil levels and/or irregularly changed engine oil or filters. For a high-quality replacement, Standard[®] and Intermotor[®] VVT Solenoids feature hard-anodized components to ensure proper performance and long service life.

Variable Valve Timing (VVT) Sprocket

Best Sellers

VVT sprockets help maximize engine horsepower and torque curves while reducing emissions and improving vehicle efficiency. To ensure proper performance for this important category, Standard[®] and Intermotor[®] VVT Sprockets meet tight dimensional tolerances to improve internal sealing, minimize oil drain back, and reduce frequency of PCM correction.
