QWIK-SENSOR™ Universal Programmable TPMS Sensors

QWIKSENSOR.com

QWIK-SENSOR™ gives technicians ease of programming, advanced technology, and 94% coverage for domestic and import vehicles.

- QWIK-SENSOR™ Universal Programmable TPMS Sensors **complement our OE-Match line** by reducing missed sales due to OE-Match parts proliferation
- 2 sensors, **available in 314.9/315 and 433 MHz**, provide coverage for both **Domestic and Import Applications**
- Sensors must be software programmed for the specific vehicle application prior to installation with a compatible TPMS tool
- Software programmed to sensors by all major TPMS tools
- Once programmed, sensors **can be OE-relearned or ID copy/cloned** – it's the technician's choice
- Available with **interchangeable rubber (snap-in) or metal (clamp-in) valves** that are found at most parts stores

NSF REGISTERED PRODUCT

Standard Motor Products® is the first manufacturer to have their TPMS sensors registered with NSF® International. NSF® TPMS registration provides third-party assurance to consumers, shops and insurance companies that a Standard Motor Products® aftermarket TPMS sensor meets all applicable federal requirements and will fit as well as function properly in a manner equivalent to the original equipment (OE) sensor on the vehicle(s) intended for use.

Contact your Standard® Representative to order yours today.
