What’s Your Opportunity Gap?

Do you have the right inventory on your shelf? In all key categories – Coils, VVT, ETBs, ABS, EVAP, Cam/Crank, Blower Motor Resistors?

Let us apply our focused category insights to help you transform your inventory investment into greater profitability.

Standard's Field Category Management Team is ready to help.

Ask your Standard® representative for details
WE'VE GOT YOU COVERED

WE'VE GOT YOU COVERED

WE'VE GOT YOU COVERED

June 1 - July 31, 2021

We've got the coverage. And we've got the quality, availability, and basic manufacturing.

Take a picture of your favorite Standard® or Blue Streak® ignition coil, VVT, ETB, EVAP, Diesel component or cam/crank sensor and post on social media with:

#StandardHasMeCovered

The first 500 posts receive a Standard® 'We've Got You Covered' T-shirt.

NO PURCHASE NECESSARY TO ENTER OR WIN. A PURCHASE WILL NOT INCREASE YOUR CHANCE OF WINNING. OPEN TO LEGAL RESIDENTS OF THE 50 UNITED STATES AND D.C. WHO ARE AT LEAST 18 YEARS OF AGE AT TIME OF ENTRY. THE PROMOTION IS VOID WHERE PROHIBITED OR RESTRICTED BY APPLICABLE LAW, AND ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, RULES AND REGULATIONS APPLY. FOR OFFICIAL RULES, GO TO WWW.STANDARDHASMECOVERED.COM.
Honoring shop employees who go above and beyond. We are inviting shops to nominate employees who go the extra mile to help their customers and their local communities.

**Ten winners will receive a $1000 donation to the charity of their choice and a $100 gift card**

**September 1 - October 31, 2021 | SMPShopHeroes.com**

*NO PURCHASE NECESSARY TO ENTER OR WIN. A purchase will not increase your chance of winning. Promotion is void where prohibited or restricted by applicable law, and all applicable federal, state and local laws and regulations apply. For Official Rules, go to www.SMPShopHeroes.com*
STANDARD MOTOR PRODUCTS
WOMEN IN AUTO CARE
SCHOLARSHIP

We are proud to present the second annual Standard Motor Products 'Women in Auto Care Scholarship' for students pursuing an education in automotive technology or repair at a technical school or college.

Two deserving women will each be awarded a $5,000 Scholarship!

February 1 - May 31, 2021

SMPWIAChscholarship.com

NO PURCHASE NECESSARY TO ENTER OR WIN. A purchase will not increase your chance of winning. Promotion is void where prohibited or restricted by applicable law, and all applicable federal, state and local laws and regulations apply. For Official Rules, go to www.SMPWIAChscholarship.com
TWELVE $5,000 SCHOLARSHIPS
Standard Motor Products remains committed to supporting future automotive technicians.

INTERMOTOR® 'IMPORT LEADER' SCHOLARSHIP
Who’s it for? Seventh annual scholarship contest for tech students pursuing an education in automotive technology or repair with an import focus at a technical school or college.
Prizes: Four $5,000 scholarships
Runs: February 1 – May 31, 2021 | IntermotorImportLeader.com

BLUE STREAK® 'BETTER THEN, BETTER NOW' SCHOLARSHIP
Who’s it for? Fifth annual scholarship contest for tech students pursuing an education in automotive technology or repair at a technical school/college.
Prizes: Four $5,000 scholarships
Runs: February 1 – May 31, 2021 | BlueStreakScholarship.com

STANDARD® 'BIGGER, BETTER DIESEL' SCHOLARSHIP
Who’s it for? Fourth annual scholarship contest for tech students pursuing an education in automotive technology or repair with a focus on diesel technology at a technical school/college.
Prizes: Four $5,000 scholarships
Runs: February 1 – May 31, 2021 | BiggerBetterDiesel.com
Standard® and Intermotor® offer more than 2,500 ABS sensors covering more than 253 million vehicles in operation. That's 96% of the North American market.

ALL OF OUR ABS SENSORS ARE PREMIUM QUALITY

**Program Highlights**

- Complete coverage for domestic and import applications
- Consistency in matching OE for form, fit, and critical function
- Superior quality control with extensive laboratory and real-life product testing
- Complementary second line offering available

**ALS638**

Nissan

Grommets and wire clips are included on the harness to ensure proper mounting and routing within the car chassis.

Sensor housing is made from high quality glass reinforced plastic resin with both high temperature and environmental protection resistance.

Sensors are 100% tested for proper functioning.
WHAT'S NEW FOR
BLOWER MOTOR RESISTORS

PROGRAM HIGHLIGHTS

750+ SKUs
Standard® offers full line coverage for domestic and import applications
High-quality replacements that match the fit, form, and function of the original
Engineered to prevent water damage
Connectors withstand excessive heat and prevent melting

PERFORMANCE TESTING
To help restore proper HVAC functions, we manufacture high-quality replacements that match the fit, form, and function of the original. Standard® blower motor resistors undergo rigorous testing to ensure precise performance and reliability.

NEW BLOWER MOTOR RESISTOR KITS WITH PROBLEM-SOLVING HIGH-TEMP HARNESS
Blue Streak® improved on the original, delivering a high-temp connector that withstands excessive heat to prevent damage. These direct-fit replacements are engineered to handle the extreme current that can melt the resistor or connector of an inferior replacement part.
CAM / CRANK SENSORS

CAM / CRANK POSITION SENSORS: QUALITY, COVERAGE, AND AVAILABILITY

- Manufactured in our IATF 16949-certified facility
- Complete coverage for all domestic and import applications
- Complementary second line offering available

NO ONE TESTS LIKE WE DO

OUR 48-HOUR VIBRATION TEST ENSURES DURABILITY
Sensors undergo 48-64 hour vibration testing across three different planes to ensure a long service life under the harshest conditions

OUR CHAMBER TESTING ENSURES PERFORMANCE
Chamber testing cycles from -40°F to 257°F to ensure optimal operation in extreme temperatures

WHAT OUR TESTING MEANS FOR YOU
Standard® cam / crank sensors protect against short circuits and over, under, and reverse voltage to deliver precision performance and a long service life under all operating conditions

QUALITY DESIGNED. QUALITY BUILT.

Matching connectors and tin-plated brass terminals ensure accurate, watertight connection to harness

High-strength neodymium magnets ensure proper signal voltage to the ECM

Factory-installed grommets and wire clips ensure proper mounting during installation

Protective sleeve prevents wires from chafing and creating short circuits

Integrated A/D converter and digital signal processing with dynamically adaptive switch point improves accuracy and operation
THE MOST COMPREHENSIVE ETB LINE IN THE AFTERMARKET

**190+ SKUs**
We offer more than 190 ETBs covering 150 Million VIO

**100% NEW, Not Reman**
Every electronic throttle body is 100% new, never remanufactured

**100% CALIBRATED**
100% calibration and testing ensure superior performance and durability

All SMP-manufactured ETBs are built in our North American IATF 16949-certified facility

**ENGINEERING UPGRADES**
As a basic manufacturer SMP engineers upgrades to failure-prone OE components and includes ETB gaskets where required

TECHSMART® VS. THE COMPETITION
Our engineers performed an extensive endurance test comparing TechSmart® S20006 to the competition. TechSmart® Electronic Throttle Body’s superior quality stands up to the most severe underhood conditions and strenuous demands of today’s engines – the competition did not.

<table>
<thead>
<tr>
<th>COMPETITION</th>
<th>TechSmart® S20006</th>
</tr>
</thead>
<tbody>
<tr>
<td>• After only 10 days of testing, the competitor ETB failed with a cracked compound gear</td>
<td>• Even after 45 days of endurance testing, our ETB was fully intact and operational</td>
</tr>
<tr>
<td>• Inherent design flaws rendered the competitor unit unusable</td>
<td>• TechSmart® delivers a premium-quality, reliable ETB that performs under the toughest conditions</td>
</tr>
</tbody>
</table>

Standard® leads the market with high-quality fuel vapor canisters built from industrial-grade materials for robust performance and extended service life.

Manufactured at our IATF 16949-certified facility, Standard® direct-fit canister solenoids feature premium quality connectors and terminals for proper fit, form, and function.

Standard® offers a full line of direct-fit, premium quality leak detection pumps.

STANDARD® EVAP®

STANDARD® EVAP.COM
WE OFFER OVER 1,000 SKUs IN THESE FUEL INJECTION CATEGORIES

WHAT’S NEW FOR
FUEL INJECTORS

PASSING THE TEST
To make sure every Standard® fuel injector meets our strict standards for quality, performance, and durability, we perform initial life-cycle validation and 100% end-of-line testing. What’s more, we subject our fuel injectors to more than 35 different tests and inspections. Here are just a few of our tests:

- Body Color
- Body Style
- Coil Resistance
- Connector Shape
- Dynamic Flow Rate
- Endurance
- Flow Matching
- Humidity
- Linearity
- Shock Load
- Spray Pattern
- Static Flow Rate
- Thermal Cycles
- Vibration
- and more!

WHAT OUR MANUFACTURING AND TESTING MEANS FOR YOU
Precision quality, enhanced performance, extra durability, and 100% consistent product reliability
THE WEAK POINTS IN MANY OE COIL DESIGNS LEAD TO PRODUCT FAILURE

**OE FLAWS**
Our engineers identify the OE flaws

**STANDARD® IMPROVEMENTS**
We design the Standard® coil to overcome these flaws

**STANDARD® RELIABILITY**
We manufacture a more reliable, better performing ignition coil

THE TEST RESULTS ARE IN

Standard® coils outperform the OE and OE aftermarket coils with more spark energy and longer lasting discharge to deliver improved performance and fuel economy.

![Spark Energy bar chart](chart1)

WE BRING THE TOTAL COIL PACKAGE

**800+**
The Standard®, Blue Streak®, and Intermotor® lines offers more than 800 ignition coils

**99%**
99% Aftermarket-Leading Coverage

**90%**
We manufacture 90% of what we sell
STANDARD® OFFERS THE VVT SOLUTION

Why do installers go back to the dealer for VVTs – availability and perceived aftermarket quality. Blue Streak®, Standard® and Intermotor® VVT lines team up to deliver the coverage and quality!

Blue Streak® offers design improvements over the original

Many of our VVTs include value-adds such as gaskets for a trouble-free install

Our extreme testing regimen ensures precise performance and longevity

The most comprehensive VVT line in the aftermarket

525+ SKUs

PREMIUM QUALITY

A REAL COMMITMENT TO DESIGN AND TESTING FOR REAL-WORLD CONDITIONS

SMP-manufactured VVT solenoids & sprockets undergo extensive measurement and life testing plus a full spectrum of environmental analysis that includes thermal shock, thermal cycling, salt spray, vibration, storage tests, and more!

With advanced engineering and basic manufacturing, our unwavering commitment to quality ensures that every Standard® VVT component measures up to real-world conditions.
BLUE STREAK® LINE EXPANSION

In 2020, the Blue Streak® line built on its successful relaunch by adding two exciting new categories – VVT components and blower motor resistor (BMR) kits. In 2021, we will continue our expansion with Blue Streak® by Intermotor® premium import coils.

BLUE STREAK® HEAVIER-DUTY IGNITION COILS

• 50+ ignition coils now available

BLUE STREAK® VVT SOLENOIDS AND SPROCKETS

• Initial release 5 premium solenoids, 1 extra-duty sprocket
• 10 additional VVT solenoids – Q3 2021

BLUE STREAK® BLOWER MOTOR RESISTOR KITS

• 10 SKUs now available
• Kits include high-quality resistor and problem-solving high-temp connector
• Blue Streak® improved on the OE design to deliver a connector that will withstand the excessive heat and protect against future failure

BLUE STREAK® BY INTERMOTOR®

• 20+ premium Blue Streak® import coils – Q3 2021
• New dedicated Blue Streak® import packaging

SMP® POLAND: ENGINEERING, DESIGN, BASIC MANUFACTURING AND TESTING

Our IATF 16949-certified facility spans 108,000 sq. ft. and employs more than 750 employees – including 60+ resident engineers. SMP® Poland introduces 110+ new products annually and serves as a basic engineering center for our most advanced Blue Streak® VVT components.

Backed by our

LIMITED LIFETIME WARRANTY

We are so confident in the durability of our Blue Streak® by Standard® products, that we’ve backed every part with our Limited Lifetime Warranty.
ADAS (Advanced Driver Assistance System) is a rapidly expanding technology and repair opportunities are growing. As the aftermarket leader, Standard® is committed to covering this high-tech category.

- Comprehensive coverage including many aftermarket exclusives
- Failure occurs due to collision and wear and tear
- ADAS components are high-ticket, high-profit jobs for the shop

NEW TPMS ASSORTMENT KITS

TPM6201SK and TPM6202VK assortments include valve stem rebuild kits, nickel-plated valve cores, valve caps and valve core torque tool for the most popular domestic and imports

*T Lifetime Updates provides the original purchaser of the TPMS tool with subscription updates for their specific device, when and as such updates are made available upon activating the TPMS tool, for the useful life of the specific device purchased with this feature. The “useful life” is defined as five (5) years, commencing on the date of purchase, provided that the device has sufficient memory capacity and other required technical capabilities to utilize current update data and is capable of operating as intended without major changes or repairs.
STANDARD® NEW, NO-CORE TURBOCHARGER PROGRAM

100% ALL NEW PREMIUM TURBOCHARGERS (NOT REMANUFACTURED)

- Coverage for gas and diesel, domestic and import applications
- Factory gasket kits included
- 3-year / 36,000-mile limited warranty
- Quality tested to meet or exceed OEM quality
- No core charge

WHAT NO-CORE CHARGE MEANS FOR YOU

- No core deposit
- No core collection
- No core returns
- No core inspection

STANDARD® TURBOCHARGER DROP SHIP PROGRAM*

Designed to help get you the parts you need when you need them, our new Standard® drop ship program is available for the entire turbocharger line – new and remanufactured, gas and diesel.

*Shipping charges are per each turbocharger shipped. For the U.S. 48 contiguous states. Customer portal, IPO, EDI, and manual ordering methods supported. Turbos ship from our Virginia DC to your designated destination.
TAKE YOUR AUTOMOTIVE TRAINING TO THE NEXT LEVEL

WITH STANDARD’S AWARD-WINNING PROFESSIONAL AUTOMOTIVE TRAINING

2021 Training Plan
Offering a combination of Virtual and On-Site training classes*
Whether techs learn using their computer or on-site they'll receive the same benefits

- Live, instructor-led classes
- ASE accreditation
- Techs receive certificate with CEUs earned
- Interactive polling
- Live interactions with our training team
- Includes course workbook

*T on-site at your location available upon request, if allowable in your area
NEW DIESEL IN-THE-BOX INSTALLATION MATERIAL

• Step-by-step color, multi-lingual install instructions
• Fuel & Tank Contamination Test Swab Kit
• Technician “Things to Know”
• ‘Call Before You Install’ toll-free hotline (800) 913-9620

QR CODE TO INSTALL VIDEOS
QR code on installation sheet provides direct link to critical videos

DEDICATED TO HELPING TECHS PERFORM SUCCESSFUL INSTALLS

Our unique website features everything a technician needs to help ensure a successful installation

The SMP Knowledge Center includes digital versions of our in-the-box installation material plus professional install videos, related parts, tips and more!

SMPKnowledgeCenter.com
BRUSHLESS DIRECT CURRENT MOTORS

Four Seasons® is the first supplier to offer a line of aftermarket light car and truck brushless blower motors, internally developed and manufactured in North America. As a basic manufacturer of blower motors, our Unimotor® facility has the ability to identify known O.E. flaws to engineer and manufacture a solution. These capabilities provide an unrivaled unit with increased service life and durability over competitive lines.

WORLD CLASS MANUFACTURING
- Custom Unimotor® Wheel Design
- Sensorless Open-Loop Commutation
- EMI Suppression
- Soft Stall and Hard Stall Protection
- Over Current Limit Protection
- Soft Start / Stop Acceleration
- Hermetically Sealed Electronics
- Integrated Cooling

INTRODUCING MOTOR RESISTOR KITS

Four Seasons® introduces Motor Resistor Kits featuring a quality direct-fit blower motor, resistor and harness connector in a single carton. These problem solving kits are application specific and designed to reduce warranty by providing all of the electrical components that commonly fail together when replacing a blower motor.

DID YOU KNOW?
Blower motor replacement can be a time consuming and difficult process due to its location under the dash. Often times an undiagnosed resistor may be to blame for premature motor failure. Four Seasons® Motor Resistor Kits contain the necessary components for a successful, long lasting repair!

Includes
- Four Seasons® Quality Blower Motor
- Resistor
- Harness Connector
MANUFACTURING

As a basic manufacturer of hose assemblies, our capability to provide a quality unit begins with experienced engineering, precise machining and custom tooling to ensure each component of the assembly meets or exceeds O.E. fit, form & function.

- 100% inspected to ensure pipe bend accuracy and consistency is maintained through highly precise CNC equipment
- All hoses are constructed with double wall barrier hose and are compatible with all automotive refrigerants including YF
- Secure Crimp Connections Through Custom Tooling Fixtures
- All Hose Assemblies are helium tested to ensure long lasting, leak-free performance

NEW COVERAGE

Four Seasons® is the Aftermarket leader with over 94.4M VIO in additional coverage for domestic, import, hybrid / electric and medium duty applications.

- All Hose Assemblies contain gaskets, O-rings, or seals for proper installation
- O.E. Specific Application Design

UNIQUE SALES OPPORTUNITY!

Did You Know? Following a catastrophic compressor failure, the hose assembly should be considered as part of the replacement due to the following:

- Hose Assemblies with an in-line filter or muffler cannot be flushed and must be replaced
- Hoses should be inspected internally and externally for cracks, barrier softness and loose or embedded particles
- Over time, loss of elasticity may cause small leaks at hose crimp resulting in low refrigerant charge, starving the compressor of lubrication leading to compressor failure

Four Seasons® Packaging Improvements

New, more efficient packaging for increased shelf space!
ACI®, established over 40 years ago, is a pioneer in the development of automotive windshield Washer Pumps and Window Lift products for the automotive aftermarket. During this time, ACI has established itself as an industry leader in providing the most complete product offering combined with “best in class” quality, engineering and design. Our engineers have over 85 years of combined experience in the development and design of window lift products. ACI®'s expanded offering and exclusive coverage defines the meaning of a Full Line Supplier.

Features and Benefits

- Designed with O.E. style connectors
- Validated for form, fit and function
- Drop in replacement for easy installation
- Regulators with O.E. flaws have been redesigned, replacing original equipment slides with rollers to extend cable life and improve performance

Testing and Validation

ACI® prides itself on validating each product in-house with our vast library of original automotive doors and testing equipment to ensure a part that meets or exceeds the O.E. The strategic decision to supply “exact fit” products combined with an intensive product validation process has allowed ACI® to maintain its position as the quality leader in this category. Every ACI® window lift product undergoes a series of 9 tests requiring up to 4 weeks to complete. Once the initial sample is approved, random samples are pulled from inventory for testing to ensure the quality meets ACI® standards.
EVACUATION & FLUSH STARTER KIT PROMOTION

For a limited time, Four Seasons® is offering this great starter kit at reduced pricing with an estimated shop value of over $700!

March 1st - August 31st, 2021

Flush and evacuate highly contaminated systems more effectively!

Often times, several quarts of flush are necessary to thoroughly flush the system, making it an expensive and labor intensive step in the repair process. However, it is also one of the most crucial steps following a catastrophic compressor failure. Skipping this step may void compressor warranty and result in a comeback. As one of the final steps in the repair process, evacuation is necessary to ensure corrosive moisture and air have been removed from the system.

The Four Seasons® Evacuation & Flush Starter Kit includes the right tools, equipment and quality flush to ensure a successful compressor replacement.
PART NO. 99906 FEATURES THE FOLLOWING:

**YF Refrigerant Leak Detector**  
Part No. 69010  
- 15.5” flexible test probe  
- Infrared gas sensor  
- Automatic zero and background compensation  
- High/Medium/Low leak sensitivity selector  
- Carrying case included

The YF Refrigerant Leak Detector makes diagnosing a leak in the air conditioning system easy and quick. Being able to diagnose quickly and accurately helps ensure that the job is done right.

**ECV Diagnostic Tool**  
Part No. 69636  
- Hand held ECV compressor tester unit  
- Power leads and wire harness set  
- 14 Female connectors  
- 15 Male connectors  
- Convenient carrying case  
- Instruction sheet

Tool comes with over 20 custom pigtails to connect to virtually every manufacturer’s computer controlled compressor. Some models from these manufacturers use ECV compressors: BMW, Chrysler, General Motors, Hyundai, Jaguar, Kia, Land Rover, Mercedes Benz, Nissan/Infiniti, Subaru, Toyota/Lexus and VW/Audi/Porsche.

BACK BY POPULAR DEMAND Four Seasons announces the return of the Diagnostic Tool Kit, P/N 99906, featuring two of our most popular tools needed for late model system diagnostics. These kits include the ECV Diagnostic Tool and YF Refrigerant leak detector, perfect for identifying the root cause of any compressor failure. For a limited time, take advantage of the special pricing while preparing your shop for the season!

**PART NO. 99906 FEATURES THE FOLLOWING:**

**YF Refrigerant Leak Detector**  
Part No. 69010  
- 15.5” flexible test probe  
- Infrared gas sensor  
- Automatic zero and background compensation  
- High/Medium/Low leak sensitivity selector  
- Carrying case included

The YF Refrigerant Leak Detector makes diagnosing a leak in the air conditioning system easy and quick. Being able to diagnose quickly and accurately helps ensure that the job is done right.

Some models from these manufacturers use ECV compressors: BMW, Chrysler, General Motors, Hyundai, Jaguar, Kia, Land Rover, Mercedes Benz, Nissan/Infiniti, Subaru, Toyota/Lexus and VW/Audi/Porsche.
INCREASE SALES AND PROFITABILITY WITH

PAC-KITS®

Premium A/C Service Kits

PAC-Kits® A/C Service Kits are assembled and shipped in one convenient package with all of the components you need to accompany an A/C compressor, ensuring a successful repair. These service kits offer greater coverage with fewer SKUs, allowing you to optimize your inventory.

PAC-Kits® A/C Service Kits include all of the following premium components, minus the compressor:
◊ Accumulator or Receiver/Filter Drier
◊ Expansion Device(s)
◊ Proper Oil
◊ All Necessary Gaskets & O-Rings
◊ Service Valves & Caps

Pair with either a new or reman SMPT compressor for a complete repair.

Benefits of PAC-Kits® A/C Service Kits:
◊ All components meet or exceed O.E. performance
◊ Application specific kits developed for maximum coverage with limited SKUs
◊ Save time by not having to order individual components
◊ New, expanded coverage

Scan here to see an A/C Service Kits video.
