Blue Streak® Heavier-Duty Ignition Coils

Blue Streak: Stronger Than Ever

Blue Streak® by Standard's new heavier-duty ignition coils are the product of superior design, manufacturing, and testing. For example, take our UF303, one of the many new heavier-duty ignition coils in our line:

UF303
GM (2008-02)

« JUST THE FACTS »

Blue Streak® Outperforms the OE

All products manufactured at our ISO/TS16949 and ISO14000-certified facility in Poland undergo extensive measurement and life testing, in addition to a full range of environmental analysis that includes thermal shocks, thermal cycling, and vibration tests, just to name a few.

To see what goes into our ignition coil testing, take a look at this competitor comparison between our UF303 and the OE:

UF303
GM (2008-02)

OE Comparison Analysis

	TEST STAGES			
	Stage 1: 300-Hour Life Test	Stage 2: 100 Thermal cycles	Stage 3: 24-Hour Life Test (with high parameters)	Stage 4: 10 Additional Thermal Shocks
 UF303	PASSED			
OE	FAILED			

Testing Takeaways

- The two OE coils tested short circuited after 68 hours and 140 hours, respectively
- The two Blue Streak® coils tested passed the 300-hour life test as well as 100 thermal cycles, a 24-hour life test, and 10 thermal shocks
- Compared to the OE, Blue Streak® coils have 9% higher spark energy and 18% higher secondary voltage, which leads to better combustion of fuel mixture and reduced exhaust gas discharge

Backed by our LIMITED LIFETIME WARRANTY

We are so confident in the durability of our Blue Streak® by Standard® Ignition Coils, that we've backed every one with our Limited Lifetime Warranty.
